## INTRODUCTORY

The Inter-State Directory Company, of Indiana, take this opportunity of thanking the good people of Lincoln County, Wisconsin, for their hearty support, encouragement and assistance in making it possible for this Company to put out one of their Complete City and County Gazetteers of Lincoln County.

Every Live, up-to-date and hustling city needs a new Directory every two years, and Merrill is in that class, and we take pleasure in stating that we will return in due time to compile a new book when needed.

Our Company employs only experienced men, and all work is taken up from original information, and no revision of old directories.

When information is needed please consult the Inter-State Directory. Several of the best Cities of Wisconsin have them. Always Reliable and full of information, and for this reason business men place their advertisements in them. See title page and index for further particulars.

We solicit your careful investigation, and assure you our next issue will be superior to this, as we are keeping pace, in the Directory business, with fast growing cities, where we publish

We again desire to thank our patrons and the people of Merrill and Lincoln County, for their assistance, kind treatment and support, both in a financial way and in securing data for this book. Yours sincerely,

INTER-STATE DIRECTORY CO.,
