## AN IMPORTANT COMMERCIAL AND INDUSTRIAL CITY IN NORTHERN WISCONSIN

---

Merrill is the judicial seat of Lincoln county. It is an incorporated city, located on the Wisconsin river and on the C., M. & St. P. Ry., 170 miles northwest of Milwaukee. The country tributary to Merrill contains farm lands of unmatched fertility. The city has at its doors a diversity of soil conditions which make for the greatest possible diversity of farming and at the same time the country is sufficiently new that diversity of opportunity is increased by the fact that there are still many acres in this vicinity which have never yet been turned to cultivation. The result is that opportunities are open for the man who is willing to pay for land already brought to a condition where it will yield immediately large profits; for the man who wishes to buy at a low price per acre and develop it, for the man who wishes to specialize with a single crop and for the man who wishes to engage in diversified farming. The lumbering interest is the largest on the Wisconsin rivers and there are numerous saw mills. The increase in population and wealth has been steady and substantial, and faith in its stability and progress is fully attested by its solid and substantial business blocks. Good taste is expressed in the architecture of the dwellings and their surroundings, in the handsome churches, in the school buildings and in every manifestation of community life. It is lighted by electricity, has an ample water supply, a modernly equipped fire department, excellent natural drainage aided by a fine sewerage system, a full representation of the leading secret and beneficial orders, commodious, well managed hotels, an electric street railway, a telephone exchange, a Carnegie public library costing \$20,000, 2 opera houses, a daily and a weekly newspaper and 3 strong banks. There are churches of the leading denominations and a public school system fully equal to any city of its size in the country. More prominent industrial concerns are saw mills, sash, door and blind factories, box factory, paper mill, pulp mill, iron works, excelsior, glove and mitten factory and factories for the manufacture of dyes, cigars, cheese, candy, shoes, hubs, spokes, etc. Merrill offers exceptional opportunities to the manufacturer needing wood of any kind as raw material.

### POPULATION

The United States Census of 1920 credited Merrill with a population of 8,068. That census only included the residents within the city limits. The canvass for the Directory included the suburban territory adjacent to the city.

### MUNICIPAL ADVERTISING

#### Directory Libraries

Copies of this Directory are placed by the publishers in Directory libraries, which are maintained in all the larger cities of the country, where they are readily available for reference use by the public. There they serve as perpetual advertisements of Merrill, for business men the country over realize that the city directory represents the community as it really is.

# SOMETHING

TO LOOK FORWARD TO IS AN ABSOLUTE  
NECESSITY TO EVERY HUMAN BEING

---

The possession of a home—your wedding—your next vacation—the success of your business—the time when you can be free from business cares—you are looking forward to something with pleasurable anticipation. Everyone is. No matter how many disappointments you meet with you will keep right on looking forward to something.

And in nine cases out of ten that “something” depends largely on your savings account. The more money you can save, the sooner your hopes can be realized. So nurse your bank account carefully—cut out the foolish extravagances and learn what real happiness is.

Interest paid on savings deposits and deposit certificates.

CONSULT THE CITY DIRECTORY  
Wright Directory Co. Publishers

**Do you realize that a City Directory advertisement is a testimonial to the permanency, the stability, of the advertiser?**

That's the sort of concern all of us want to patronize, because we know when they sell us merchandise they are behind it in every way, today, tomorrow, and for the years to come.

*"Fly-by-night," "fire-sale" and other temporary or "get-rich-quick" concerns rarely appear in the City Directory.*

And it is a noteworthy fact that the concerns which advertise one year in the city directory are there again next year. 90% of directory advertising is renewed.

Directory advertising, is profitable. In connection with the classified business headings it is doubly effective.

*May we explain how and why it will pay you?*
