## PRINCIPLES OF CO-OPERATIVES

- ★ They are open to everyone.
- ★ Are democratic — one member, one vote.
- ★ Pay limited interest on capital.
- ★ Pay patronage dividends on purchases.
- ★ Sell at market prices.
- ★ Are neutral in race, religion and politics.
- ★ They educate constantly.

MERRILL, WISCONSIN

"THE CITY OF PARKS"

\*\*\*\*\*

Merrill is situated at the confluence of the Prairie and Wisconsin Rivers, at the Southern edge of the summer resort region.

Merrill is called the "City of Parks" because of its numerous parks and picnic areas. Council Grounds State Forest lies just one mile west of Merrill on the picturesque Wisconsin River. It is a 227 acre tract of unsurpassed beauty.

The City of Merrill boasts two modern hotels and many first class tourist homes and cabins where one may rest and enjoy the very best in food and hospitality.

The Prairie River is virtually a fisherman's dream come true, having an abundance of brook, rainbow and brown trout. There are many lakes and streams within easy driving distance of Merrill where one may enjoy fishing for muskies, pike, bass and pan fish.

Merrill has two fine air-conditioned theaters, in addition to the golf course, numerous tennis courts, soft-ball and baseball games for the visitor's entertainment and relaxation.

There are many beautiful homes in Merrill and in the summer, their well kept lawns and flower gardens are a thing that will long be remembered.

The area surrounding Merrill is composed of many fine farms where one can see some of the finest dairy cattle in the country. The modern dairy barns and the herds of grazing cattle create a familiar and picturesque scene.

Merrill's many diversified industries include a milk condensery, shoe factory, textile mills, sash and door factories, wood-working plants, paper mill, wire works and others. Many good factory sites are available in Merrill and new industries are invited and always welcome.

The school system in Merrill is one of the best and a child can get an education that can be compared with that given anywhere.

Merrill boasts seventeen churches of all denominations. A visitor to our fair City can pick the church of his choice and feel welcome.

Holy Cross Hospital is one of the finest anywhere and one can be sure of the very best of medical care.

The Merrill Chamber of Commerce is always ready to welcome you to our city and help you to enjoy the hospitality of the "Friendliest People on Earth."

# Of Interest To You!

## What Is A Community Without A NEWSPAPER?

One is so used to the conveniences and the interest of the daily newspaper of one's own community that it is hard to appreciate the real importance of this influence and service in our daily life. The only way to awaken to the necessity of the local newspaper is to know the experience of living in a town that has no local paper.

The community without a progressive newspaper is dormant and dependent upon its neighboring towns, not only for news but for many of the daily needs of life that the stores in other towns advertise in their newspaper. The city with a progressive newspaper is a thriving place—self-supporting, interested in Town affairs as well as those of the rest of the world.

Such a city is Merrill with the MERRILL DAILY HERALD to awaken its civic consciousness and to supply it with the news of its people and its neighbors, and just as important, the news of its stores, for readers in this age are just as interested in advertising that's profitable for them to read, as they are in news.

Read the HERALD for news . . . . advertise in the HERALD for results.

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.
