# This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and

social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

**\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.**

# INTRODUCTION

We take pleasure in presenting our seventh edition of the Merrill City Directory. We have included the Merrill Rural Routes, much information of a miscellaneous character, the Street and Avenue Guide and a Reverse Telephone Directory.

The new Merrill Directory is as complete and accurate as we can possibly make it and we hope it meets the approval of every user.

A Directory Library of out of town directories is maintained by the Publishers for the free use of the public in the Chamber of Commerce office.

## MERRILL FORWARD

It is right to regard Merrill - the Merrill Market- as more than a "political unit". In the management of sales it is generally true that guiding statistics are accepted on a "county" (political unit) basis. But Merrill's closeness to the north tier of agriculturally rich northern Marathon county townships, the fact that it is the last "biggest town" before the resort country and the fact that the mid-North's population does NOT show in the census figures because "heads are counted" elsewhere suggests ANY appraisal of this MARKET is worth approaching with a fresh viewpoint and a non-orthodox slant. Merrill is MORE --much more-- than just the one county of which it is the county seat. And we beg leave to suggest that this applies in most fields of activity --social, jobs, markets or production.

### 1. PEOPLE . . . AND POPULATION

It is a frugal, solid and friendly lot that you'll find here in Merrill of the Mid-North. The 1950 census say "in excess of 0,200" people live in this fine example of an American town. Then there are about 22,500 people in the surrounding county (Lincoln), with 30,000 in the primary trading radius. In Merrill city over 92 percent are native-born. Workers in town number well over 3,000 (the state of Wisconsin estimated 3,335 in 1950; but the figure would be greater now). Majority of families own thier own homes.

### 2. LIVING

Education: Seven grade schools supply Merrill Area children their three R's. In addition there is a Public Senior High School and a Junior High School and a private high school for girls. Also there are a well-staffed Vocational School and Lincoln County Normal School. The Scott Public Library is well-stocked and ably operated. Incidentally, the Library lawn has a "Kaltenborn bench" supplied by H. G. Kaltenborn (who is one of Merrill's famous sons). The Lincoln County school system has 46 rural schools.

Religion: Sixteen fine churches representing many denominations cater to the Merrill Area spiritual needs. They are also busy centers of activity for their communicants. The presence of so many and such well-kept churches always seems to appeal to visitors.

Recreation: The five municipally owned parks total 150 acres. There are quite a number of small treed squares and playgrounds in addition. Public swimming beach, a winter sports playground and tennis courts are maintained. The city has a full-time recreation department, too. The city offers home folks and visitors the best brand of baseball in the state, for the Rangers, Merrill's ball club, have twice been state champions. Merrill's ball park is the pride of the town. A sporty golf course --that of the Merrill Golf club-- is always an attraction.

Lakes and streams --as you know-- are famous in Wisconsin's mid-North and help make Merrill one of the "fishingest towns" there ever was. That's one of the things that helps make life so much better living in Merrill.

And then you've heard about Merrill's City Band? Its members are skilled musicians --and their concerts every Summer Wednesday night in the band shell of Stange park make "Music in Merrill" mean as much as it does.

There's a state park here too. Called Council Grounds, this big natural Wonderland forms part of Merrill's west city limits. Close to town, too, on the fast Prairie river whereas Council Grounds is on the Wisconsin, is the city's Memorial Forest, well over 900 acres.

Health: With a splendid water supply, a vigorous though temperate climate and every natural advantage to encourage man's comfort and health --all of the man-supplied facilities are here too. A watchful city health department, a 100-bed modern hospital incidentally, beautifully located on a high embankment on the Wisconsin, eight dentists and nine physicians are always on the alert to keep the community healthy.

Government: It's the aldermanic form of government in Merrill and the supervisor system in Lincoln county. Both have made notable records for demonstrating Democracy in action at the local level. A long-range chamber of commerce program includes, among other provisions, that "worthiness in public office should be recognized as being worthy..." Local government in the Merrill Area can well be held up as a model.

The Merrill city government is headed by a part-time mayor, has all of the usual departments who are governed by the board of alderman. The fire department has a full-time staff of 13 with two stations and three pieces of equipment... the police office is also manned by 13 men. Efficiency in both departments is notably high as can be expected in communities where people take pride in citizenship. Preventive practices are closely observed, and the fire loss is low --in 1950, for example, this amounted to only \$1.64 per capita.

Lincoln county is governed by a board of supervisors lead by its board chairman. Most department heads are elected. The county police staff is five.

Organizations: The Merrill Area has its full quota of organizations in every realm of human interest. These include social and service, fraternal and patriotic, church clubs, sports groups, trade and music. Notably active among these are the Jaycees, the veterans organizations, Lions, Rotary, Chamber of Commerce, etc. The various trade unions also have a central group governed by delegates from the several locals.

### 3. GEOGRAPHY AND BACKGROUND

Location: Distance between Merrill and Milwaukee and Merrill and Minnesota's Twin Cities is just about the same --something over 200 miles. Milwaukee is to the southeast and the Twin Cities to the west and south. Highway identification focuses on U. S. 51, "Main street of America's Middle Country", north and south, and on Wisconsin 64, east and west. Other state roads serving Merrill are Wisconsin 17 and 107. There's an excellent county trunk (W) called the River Road between Merrill and Wausau. And a river road to the north, between Merrill and Tomahawk is Wisconsin 107.

Primary identification are the rivers, of course, Merrill being situated at the junction of the Wisconsin and the Prairie river.

History: First permanent settlement, 1847; Lumbering's golden age, about 1880; Peak of the sawmill activity, about 1892; Early town name, Jenny; Rechristened Merrill, 1881 (in honor of the then newly-arrived Chicago, Milwaukee and St. Paul Railway manager, S. S. Merrill) 1880 county population 2,011.

Characteristics: Summer or winter Merrill presents quite a view approached from most any direction. Higher tablelands surround the community, giving one the impression that the city sets in a valley.

The city is built pretty much "along the rivers", making it considerably longer east and west than it is north and south. Hence Merrill Merchandisers are able to call their shopping section "one of the longest of any small town:. Some say that this happenstance wherein homes and shops built up near to the mills that spread such a distance along the river anticipates community needs for dispersed shopping sections to better accommodate parking.

The water is a high type and is supplied by a municipally-owned system, operating under council supervision.

The physical Lincoln county is called "northern highland". Its soil is sand-clay ... Spencer-type silt loams in the south, sandy in the north. Topography of the area is varied, some of it quite hilly, but most of it not too irregular. Of about 580,000 acres in the county approximately 9,000 are in the form of lakes and streams.

#### 4. THE ECONOMY OF MERRILL MARKET

Farm: The area is a substantial dairy producer, with attendant production of crops that are related to dairying. Sales Management gives Lincoln County a gross cash farm income of \$7,559,000 for 1951. There are in the excess of 1,600 farms. Based on "political unit statistics: such figures probably do not do justice to the Merrill Market, for they include none of the northern tier of Marathon townships.

Some detail on South Lincoln County Townships follow:

<u>Township</u>	<u>No. of Farms</u>	<u>Land Area</u>	<u>Acreage Farms</u>	<u>% Land in Farms</u>
Pine River	257	41,134	35,370	86
Scott	179	21,266	21,904	100
Corning	182	92,686	30,001	32
Harding	55	46,122	8,062	17
Rock Falls	62	30,691	8,466	27
Birch	101	23,072	15,563	67
Russell	115	23,019	16,345	71
Merrill	185	36,564	26,324	72
Schley	194	30,816	24,751	80
Totals	1330	345,370	186,786	61

Industry: The amazing balance of Merrill industry is something that not all people appreciate.

This "industry balance: picture holds reason for interesting examination:

1. No one employer group makes excessive demands on trained labor supply in any one group.
2. A number of younger men are at the helms of some enterprises.
3. Much of the enterprise is "native" --grew out of the soil.
4. Those units which are "branch plants" are evidently "well placed" --with elements favoring their continued operations much in the community's favor.

Industry (Cont'd)

5. To maintain "jobs, markets and production", Merrill does not have all of its eggs in one basket.

Demanding mention is Merrill's colorful —and sometimes resultful—experience in the local action field of municipal and volunteer promotion of new industrial enterprise. Scores contributed to these efforts in the 30's, and the industrial balance of Merrill now is to their credit.

Worth noting, too, is that, as the result of city council and chamber of commerce cooperation, voters gave permission to the reestablishment of an "industrial promotion fund" on a continued basis which will ultimately result in an "industrial foundation" of a permanent nature.

It's a good workman . . . your workman in Merrill!

# welcome to MERRILL

Merrill, county seat of Lincoln County, in the north central section of Wisconsin, observed its centennial in 1947.

This site, where the Wisconsin and the Prairie rivers meet, was virgin forest in 1847 when a dam was built across the Wisconsin river, a sawmill erected, and a permanent settlement established.

During the first several decades of its existence, the community was primarily a sawmill town.

Its period of greatest growth began in 1880, with the coming of the railroad. This was during the "Golden Age of Lumbering," which ended at the turn of the century.

First called Jenny Bull Falls, then Jenny Falls, and later Jenny, the city was named Merrill by act of the state legislature in 1881. This was in honor of S. S. Merrill, then general manager of the Chicago, Milwaukee and St. Paul Railroad.

In 1892, when sawmill operations reached their peak, there were eight mills running and the total cut that year was approximately 150,000,000 feet of lumber and 86,000,000 shingles.

As the supply of pine diminished, the volume of lumber produced declined rapidly, and the emphasis turned to the hardwoods.

Today there is a considerable diversity of industry, though the manufacture of wood products is still an important part of the whole.

Merrill is now a city of approximately 10,000 population. It is a city of friendly people who extend a sincere welcome to all who come to visit or who come to make it their home.

# **MERRILL** is the *natural* trading center for an area having a population of about 30,000

The rural residents are dairy farmers for the most part. Their herds of pure bred and fine grade dairy cows are among the best in the state. The many fine farms that dot the gently rolling countryside show the results that come through the use of modern farm machinery and the application of the best farming practices.

Through the years, the Chamber of Commerce has fostered urban-rural relations and today there exists a splendid spirit of cooperation that is mutually beneficial.

Though the city came into being and existed for several decades as a sawmill town, it now has a wide diversity of industry. Among the many articles manufactured or processed are:

Shoes, paper, window sash, doors, window units, woolen sports garments, woolen blankets and other goods, barn equipment, evaporated milk, butter, cheese, canned peas, canned beans, knitted woolen garments, cheese boxes, toothpicks, wooden handles for brushes, candy, wire goods, cement blocks, gloves, grey iron castings, slats for venetian blinds, garage doors, children's furniture, kitchen cabinets, lumber, and a variety of smaller items made from wood.

A number of fine city-owned lots are available for industrial purposes and the industrial committees of both the city council and the Chamber of Commerce will be glad to answer any inquiries from business or industrial concerns seeking locations or information.

Merrill has modern theaters, hotels, and restaurants. The city is adequately served by its fine daily newspaper, The Merrill Daily Herald, with a guaranteed circulation of 4,900. Radio station WLIN, a 1,000 watt station, serves not only Merrill but half of Wisconsin and northern Michigan.

Merrill is a station on the Valley Division of the Milwaukee Road and is also served by the Greyhound Bus Lines. Its airport is municipally-owned. A bus line provides public transportation within the city limits.

The city of Merrill has many social, cultural, church, fraternal, veteran and service organizations. Though its physical attractions are many and varied, its greatest asset is, perhaps, its spirit of neighborliness that brings a measure of contentment to its residents and an immediate sense of welcome to the visitor.

The seventeen churches of the city, its fine public library and the many excellent public and parochial schools reflect the friendly character of Merrill's residents, whose homes border pleasant streets lined with shade trees . . . homes with well kept lawns and lovely gardens.

No description of Merrill would be complete without mention of the outstanding parks which have been responsible for the title "City of Parks."

Council Grounds State Forest, a 277-acre tract of surpassing natural beauty, is on the Wisconsin River, but only a mile west of the city. With its central shelter house, outdoor fireplaces, boat landing, parking sites for motorists and trailer tourists, and sanitary facilities, it is a popular picnic place for both residents and visitors.

The Stange Public Park, in the heart of the city, provides fishing for the youngsters in its tree-shaded lagoons, a bathing beach on the banks of the Prairie River, an athletic field and grandstand, playground equipment for the youngsters, a kitchenette for picnic groups, and a band shell for the outdoor concerts staged weekly during the summer by the Merrill City Band.

Riverside Park, on the Wisconsin River, is another popular retreat. It has accommodations for picnic parties and a pavilion for dancing. This woodland area has a quiet charm though located but a stone's

throw from the bridge over which busy U. S. Highway 51 enters the city from the south.

This area is a fisherman's paradise. The Prairie River is a noted trout stream. Other streams and lakes within the city limits, or but a short distance away, abound in muskellunge, bass, pickerel, pike and pan fish. For the sports-minded, there are a fine golf course, excellent tennis courts, an archery range, an athletic field with grandstand and lights for hardball and football, and a number of softball diamonds.

## MERRILL STREET & AVENUE GUIDE

1 9 5 3  
Published By:

JOHNSON PUBLISHING CO. MANITOWOC, WISCONSIN  
\*\*\*\*\*

Information in this section is shown in the following order:

- (a) Street number and in cases of apartments or office buildings, the apartment and office number is shown.
- (b) Name of householder.
- (c) The symbol © is shown where the census takers obtained information that some member of the family owns the home.
- (d) The first number is the telephone number as reported to the census taker and is followed by the symbol Δ.
- (e) The number in parenthesis indicates the number of persons in the family.

Great care was used in taking the census and compiling the information in this section as well as in the other parts of the Directory. However, some errors are bound to creep in and it is expected that information herein contained will be used accordingly. No responsibility is assumed by reason of such errors.
