This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

GENERAL INFORMATION

Merrill, county seat of Lincoln County, in the north central section of Wisconsin, observed its centennial in 1947.

This site, where the Wisconsin and the Prairie rivers meet, was virgin forest in 1847 when a dam was built across the Wisconsin river, a sawmill erected, and a permanent settlement established.

During the first several decades of its existence, the community was primarily a sawmill town.

Its period of greatest growth began in 1880, with the coming of the railroad. This was during the "Golden Age of Lumbering," which ended at the turn of the century.

First called Jenny Bull Falls, then Jenny Falls, and later Jenny, the city was named Merrill by act of the state legislature in 1881. This was in honor of S. S. Merrill, then general manager of the Chicago, Milwaukee and St. Paul Railroad.

In 1892, when sawmill operations reached their peak, there were eight mills running and the total cut that year was approximately 150, 000,000 feet of lumber and 86,000,000 shingles.

As the supply of pine diminished, the volume of lumber produced declined rapidly, and the emphasis turned to the hardwoods.

Today there is a considerable diversity of industry, though the manufacture of wood products is still an important part of the whole.

PLEASE

Do Not Lend Your
CITY DIRECTORY

IT COSTS YOU MONEY

Every Time It Is Loaned

The practice of lending your City Directory, in a great measure is responsible for the increasing cost of Directory Service.

The reason is. . . .

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS-BE THEY ONE - OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY - THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS - each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS - each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers - the LESSER the cost to each.

and. . . .

It is also obvious that the LESSER the number of subscribers - the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.
