\* Please Note: The Street & Avenue Guide and the Telephone Locator sections do not appear in the residence copies.

The JOHNSON PUBLISHING COMPANY, INC. is pleased to present the 1985 edition of the Merrill, Wisconsin City Directory.

It has always been our policy to provide accurate and comprehensive directory service to those communities that desire the "finest". We realize however that some errors and omissions are inevitable and earnestly request that these be brought to our attention by calling (303) 667-0652. These errors and omissions will be corrected in the next edition of the directory. It is only through the interest of the subscribers and users of the directory that each new edition can surpass the last.

In the public interest the use of this directory for any other purpose than as a reference volume or reproduction of any part of this directory is expressly prohibited without written permission from the publisher.

In 1932, a young lawyer fresh from Marquette University decided to publish a book. This was not an ordinary book, but a list of people, their families, occupations and other vital information — a city directory. 1932 was hardly the time to begin, but people and businesses needed this important information then, just as they do now. Ken Erion started Johnson Publishing Company that year, and guided its growth on

sound business principles and belief in a quality product designed to service his customers. Now, more than fifty years later, Johnson Publishing Company and its affiliates are still doing what Ken Erion initiated in 1932.

From one small city directory in Wisconsin, Johnson Publishing has grown to serve over 2000 communities across the United States with quality, accurate directories.

New products, enhancements of service and our rigorous commitment to place Johnson Publishing Company in a leadership role.

# History

---

## Merrill, Wisconsin

Like a number of settlements in the great timber country of the North, Merrill was some time arriving at its name. In the early 1840s as the timber country was open to meet the needs of the tree-barren prairie states and a growing nation, the present site of Merrill was known as Jenny Bull Falls. It lay at the heart of a vast forest land known best to the Chippewa Indians who camped at Big Eddy and pow-wowed at Council Grounds.

By 1843, a trading post was built about a mile and a half south. John Faely had constructed the first home shortly before. Four years later, Andrew Warren began construction of a dam across the Wisconsin River at the foot of Mill Street. Warren also built the first of what was to be a number of sawmills in Jenny Bull Falls and later Merrill. The mill was powered by the dam which was nine feet high and nearly 500 feet wide. In 1870, T. B. Scott succeeded Warren in ownership of the mill. By 1880, the mill had an annual capacity of 10 million board feet plus two million

shingles. Fifteen years later the mill was producing 25 million feet of lumber and 20 million shingles. In 1899, this highly productive mill burned to the ground. In the meantime, Jenny Bull Falls legally changed to Merrill in honor of the general manager of the Chicago, Milwaukee, St. Paul and Pacific Railroad, Mr. S. S. Merrill. This railroad and passenger depot, a hub of social activity through the boom lumbering years and after, served as a community youth center until its demise in 1976.

A number of significant events took place during the 1880s and 1890s. Coinciding with the adoption of the name Merrill in 1881, the Wisconsin Telephone Company began operation with 20 phones in service. By 1885, the population had reached 7,000, only 3,000 less than live in Merrill today. Two years before, in 1883, Merrill incorporated and the first City Council met and T. B. Scott was named the lumber city's first mayor.

Electric street cars were placed in operation in 1890, one of the first such installations in the world. Further evidence of the refinement of civilization was seen a year later when the T. B. Scott Library was opened. Eighteen Ninety-One was the arrival in Merrill of the famed

# History ...continued and Demographics

Hans V. Kaltenborn. Only a lad of 13, Kaltenborn grew to maturity here with his family and then went on to become the dean of American news commentators. Eighteen ninety-two marked the peak of the lumbering boom. That year, with eight mills in operation, a staggering 150,000,000 board feet of lumber was produced along with 86 million shingles. From this point, the impact of lumbering began to taper off primarily due to the decline in the great pine forests. The lumbering men began to concentrate on the hardwood forests; in 1898 nearly 20 mills in this area produced hardwood lumber. Merrill's present recognition as a principal millwork center seems only natural in light of the lumbering background of the community.

The turn of the century marked a milestone for Merrill. Faced with a diminishing timber supply, the people who had built the city faced a decision—move on to greater timber resources, or stay and diversify their industry. Their decision to stay underscores one of the great strengths of Merrill today—a diversity of industry that provided a stable economic base and avoids those problems inherent in a city of one or few industries.

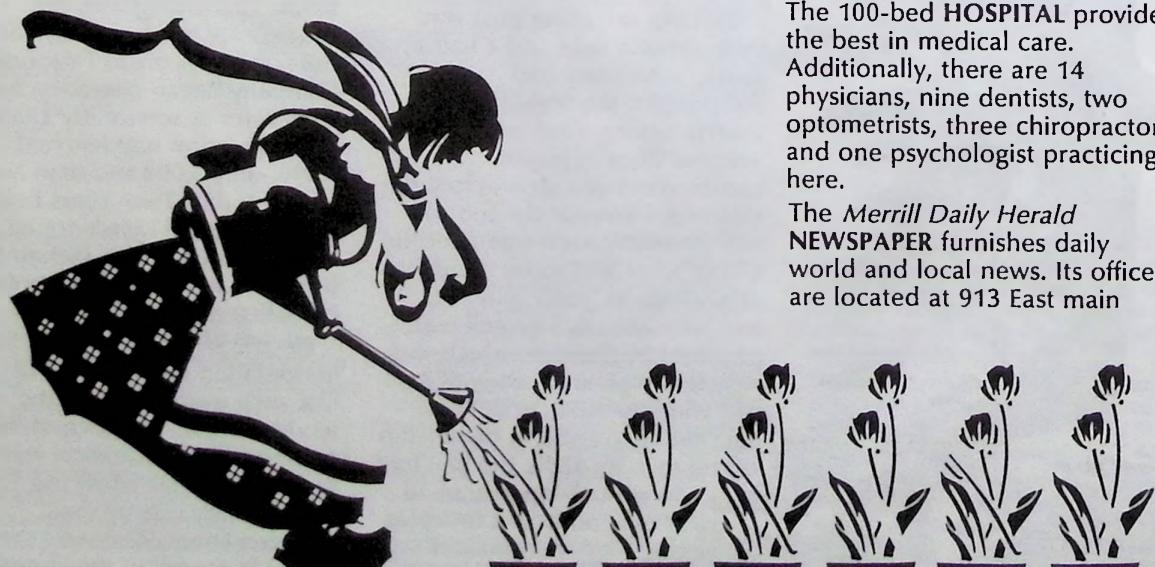

pickup, arterial cleaning, parking and animal control. The city limits **POPULATION** of 9,578 is served by a **POLICE** department consisting of 20 officers and a **FIRE** department which employs 25 full-time firemen. The total population of Lincoln County is 26,311.

Educational facilities in Merrill include eight elementary, two secondary, and five parochial **SCHOOLS**. There are also four nursery schools, one special school and one Life Tasks Center available to the community. Religious education is provided by the 19 **CHURCHES** located here.

Among other facilities of importance to the community are two **BANKS**, two **SAVINGS & LOAN** associations, and one commercial **CREDIT UNION**. The current **TAX RATE** for Merrill is 26.11 mills per \$1,000 at 87% of market value.

The 100-bed **HOSPITAL** provides the best in medical care. Additionally, there are 14 physicians, nine dentists, two optometrists, three chiropractors, and one psychologist practicing here.

The *Merrill Daily Herald* **NEWSPAPER** furnishes daily world and local news. Its offices are located at 913 East main

# The Chamber

Street and has a circulation of approximately 3,800. The *Merrill Shopper & Foto News* is located at 805 East Main Street and has a circulation of about 14,775. WJMT RADIO broadcasts from 730 on the AM dial and 93.5 on FM. WSAW TELEVISION, channel 7 is received from Wausau as is WAOW, channel 9. WAEO-TV, channel 12 is received from Rhinelander. Cable television service is also offered. First, second, and third class POSTAL SERVICE is located at 430 East Second Street. The final link in the communications network is provided by Western Union TELEGRAPH Company at 201 North Center Avenue (phone: 536-9475).

Merrill, which is aptly known as the "City of Parks" employs a full-time park & RECREATION Director to oversee activities and facilities. The city has 11 beautifully wooded parks which feature activities for all ages: picnicking, hiking, fishing, swimming, and tennis. There is abundant playground equipment, baseball diamonds, horseshoe pits as well as facilities for ice skating, snowmobiling, and snow skiing. Merrill is also the home of Council Grounds State Park. Few areas offer a seasonal mix of outdoor recreation compared to Merrill's.

## Telephone Locator

---

A guide for Locating area  
residents and businesses when  
only the telephone number is  
available.

# Numerical Telephone Locator

Telephone Numbers Arranged in Numerical Sequence from the Lowest Number to the Highest Number

The Locator takes the "guess work" out of who called, blind numbers in advertising or any other situation where only the telephone number is known.

Exchange

269	Numbers are preceded by above prefix
478 SHAFER Philip D	6680 DIETERLY Donald A

	6741 INSTITUTE OF MINING & PETROLEUM

Telephone Numbers in Sequence Order

More Than One Adult Using The Same Telephone. The Telephone Book Probably Lists Only One Person

## What's In A Phone Number?

### ABOUT THE FIRM

Who called me? When your call back message gives a telephone number only - or includes a common surname such as Jones, Smith, Brown etc. - the Numerical Telephone Locator will assist in determining correct firm name. Make use of both Alphabetical and Street Guide Information to

establish names of officers, owners or partners, products and services, and correct address. Properly identify firm and caller and have necessary records, files or correspondence on hand before returning call.

### ABOUT THE INDIVIDUAL

Who called me? When only a telephone number is

known, the Numerical Telephone Locator will assist in determining the name of the individual - this information combined with other sections of your City Directory will quickly establish such information as wife's name, place of employment, title, home address, business address and other necessary information.

## Street and Avenue Guide

---

Indexes the streets and avenues of the city in alphabetical order, with directions as to their location and zip code.

# Street & Avenue Guide

## Listings by Street with House Numbers in Sequence Order on Each Street

## — Use Your Street & Avenue Guide! —

- ...For Deliveries & Routing
- ...For Collections - Skip Tracing
- ...For Prospecting By Areas
- ...For Identification in Check Cashing
- ...For Identifying Neighbors of Present Customers
- ...For Emergencies
- ...For Identifying New People to your City & New People to a Neighborhood

# MERRILL STREET AND AVENUE GUIDE

Information in the Street & Avenue Guide is shown in the following order:

- (1) Street number and, in cases of apartments or office buildings, the apartment number or the room number.
- (2) Name of householder, business or profession.
- (3) The symbol ® indicates ownership of the home.
- (4) The telephone number as reported to the census taker.
- (5) Zip code shown after street directions.

## AREA CODE 715

**1ST E**

# WE'RE LOOKING FOR TROUBLE

Big trouble: high blood pressure that affects one in four adults today. But it's often dangerously symptom-free. Which means nearly 37 million Americans have an increased risk of cardiovascular problems. Without realizing it.

Your contribution to the American Heart Association supports research into the causes and treatment of hypertension. It's an investment in helping millions recognize the importance of having their blood pressure checked regularly and learn how to control it. For longer, healthier lives.

And when finding trouble has that kind of happy ending, we'll be looking for a lot more.

WE'RE FIGHTING FOR YOUR LIFE
